Thoroughly mix the product with hard or soft water at the rates shown, then add wetter. The product should be applied only to vigorous vines growing under good conditions and capable of carrying an increased crop. This applies particularly to Muscat Gordo Blanco. As many factors affect yield of grapes, the use of CYCOCEL 77A may not always result in increased fruit production.

COMPATIBILITY

Do NOT mix the product with other chemicals except non-ionic wetter, unless compatibility has been tested.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Do NOT contaminate dams, rivers, drains or streams with the chemical or used container.

STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do NOT dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots.
