General Instructions:	<p>GENERAL INSTRUCTIONS TRUMP Spray Oil controls Aphids, Lace Bugs, Leaf Hoppers, Mealybugs, Mites, Plant Bugs, Scale, Whitefly, Eggs of Aphids and Mites on vegetables, Fruit Trees, Nut Trees, certain field crops, Shrubs, Plantation Trees, Greenhouse Plants, Ornamental Foliage Plants and Flowers. TRUMP Spray Oil can be used in combination with certain fungicides, herbicides and insecticides as a wetting agent/adjuvant/carrier as specified on the products label.</p> <p>MIXING INSTRUCTIONS</p> <ol style="list-style-type: none"> 1. Add water to the mixing tank to allow proper agitation by pump or paddles. 2. Add other desired pesticides. <ol style="list-style-type: none"> a. If wettable powder formulation – mix water and powder thoroughly so that powder is totally suspended in the water before the oil is added. b. If other pesticide to be added is an emulsifiable formulation, do so after the oil and water has been thoroughly mixed. 3. Add oil under agitation when tank is three quarters full. Top off with water to form a milky solution. 4. Maintain agitation until solution is completely used. 5. In a small equipment lacking agitators, stir or shake diluted spray frequently during applications. 6. It is important for users to read and follow all instructions on the labels of the proposed tank mixed products. 7. Flush fluid in sprayer hose lines back into tank reservoir if fluid is allowed to stand for more than 20 minutes. <p>APPLICATION INSTRUCTIONS The target must be completely covered in spray. Oil residue on the plants surface often acts as a feeding and oviposition deterrent. However, the primary target is the pest itself as TRUMP Spray Oil is a contact pesticide. Dilute applications. (Greater than 1400L spray per hectare in horticultural crops) in most cases ensure best coverage. Speed of travel is extremely important, tractor speed from 1.6 kph to 5.4 kph is recommended, depending on crop size and target pest. Do not spray when shade temperatures are or exceed 32°C .</p> <p>COMPATIBILITY TRUMP Spray Oil can be used with such pesticides as NPV's, Bt's, Pyrethroids, Abamectin, Tracer II*, Mancozeb and Folicur* as stated on their respective directions for use labels. Do not use spray oils with Dimethoate. If possible, either keep the spray equipment used for these compounds separate from the equipment used for TRUMP Spray Oil, or make sure that the sprayer is thoroughly cleaned, so that no residue from these compounds remain. Do not use with Carbaryl on deciduous fruit trees.</p> <p>TANK MIXTURES TRUMP Spray Oil may be mixed with other pesticides to improve the level of kill or enhance coverage. User should read and follow all instructions on the label of the proposed tank mixed product.</p> <p>TIMING THE TREATMENT Applicator must determine the precise timing to fit local growth and climate conditions. Do not exceed maximum rates or apply more often than recommended.</p>

ENVIRONMENT

Dangerous to fish. Do not contaminate streams, rivers or watercourses with the chemical or used containers.

PROTECTION OF CROPS, NATIVE AND OTHER NON-TARGET PLANTS

Do not apply pesticides or other chemicals incompatible with oil, within 4 weeks before or after application of any other spray oils, as crop damage may occur.

Do not apply within 3 weeks before or after a spray containing sulphur.

Storage and Disposal:

Store in the closed, original container, in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight.

Triple rinse containers before disposal. Add rinsate to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point.

If not recycling, break, crush or puncture and bury empty containers in an approved waste facility. If an approved waste facility is not available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. DO NOT burn empty containers or product.

Refillable Containers: Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.

Safety Directions:

Will irritate the eyes. May irritate the skin. Avoid contact with eyes and skin. When opening the container and preparing spray wear elbow-length PVC gloves and face shield or goggles. If product in eyes, wash it out immediately with water. Wash hands after use. After each day's use, wash gloves and face shield or goggles.

First Aid Instructions:

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26, New Zealand 0800 764 766.
